### Smart Meter Upgrades

[EXPAND ALL](#) | [COLLAPSE ALL](#)

---

Will I get a smart meter? >

---

Where will the smart meter at my house or business be placed? >

---

How big is the smart meter? >

---

What should I expect on the day of installation? >

---

Can I make an appointment for the meter upgrade? >

---

Will a smart meter affect my bill? >

---

What if I have a security alarm engaged during the meter upgrade? >

---

---

Are there alternatives to receiving a smart meter? v

We offer a Non-Communicating Meter Option, (Opt-Out) for customers who do not wish to have a fully functional smart meter installed at their home. The Non-Communicating meters are smart meters with both the two-way communication and data storage features disabled. [View requirements](#).

Smart meters offer customers many benefits that are not available with the use of a Non-Communicating Meter. Benefits include:

- remote outage detection
- remotely connecting and disconnecting your service, and
- pricing plans.

For more information, call **866-566-6436**.
